Call for Presentations at SWISSD19

Home / Call for Presentations at SWISSD19 + Call for Presentations ...

At the beginning of the new year it is time to focus on one of this year's highlights – the **SWISS Systems Engineering Day 2019**.

The annual event of the SSSE will take place on **Monday 2-Sep-2019** in Zürich at the waterside of Lake Zürich. Beside the marvelous location the SWISSD19 presents three renowned keynote speakers: **Alessandro Golkar, David Longton Holt**

Furthermore, this year's event will function under the motto "**Systems Engineering – Connecting People**". In addition to the offered technological challenges, working with complex systems is to a tremendous extent people business. Creating cross-functional and distributed teams, providing and communicating solutions in today's dynamic and complex problem spaces, involving various stakeholders over the different stages of the product life cycle, keeping up with the innovation...

SWISSD19 offers a unique platform to connect and discuss your System Engineering topic with other SE enthusiasts.

- Do you have an interesting project where Systems Engineering was one of the key drivers?
- Do you have key learnings, from which other SE colleges could profit from?
- Do you have expertise in specific SE methodology?
- Would you love to elaborate your most pressing SE related topic in a collaborative World Café session?
- Do you agree that it is worthwhile spreading the word about Systems Engineering and System Thinking?

YES?

Please register at <https://easychair.org/conferences/?conf=swissed19> and apply for a presentation (20 min talk) and/or to get the chance to moderate a World Café Session with your topic in the spotlight.

We are looking forward to your contribution to SWISSD19 and most important to live the motto of the conference "Systems Engineering – Connecting People"!

Give Aways for presenters	1500

End

SSSE

Strategy

- Promote working groups
- Support programme and discussions

SE Working
Groups

- SE Job board
- Support SE industry for their networking and knowledge sharing
- Keep the Adam Smiths spirit: share to grow!

Industry

- Top Key notes
- Establishment as “place to be” for
 - SE people development
 - SE Methods
 - SE Tools

SWISSED

- Promote student prize
- More collaborations with Universities
- Support students in becoming INCOSE members

Academic

- Invite new contributions
- Invite new hosts

SELECTED
Events

- Support SE competency building in organizations in Switzerland
- Increase the number of Members of the SSSE

SE Competency
in Switzerland
