THE SMELL OF FRESH COFFEE

Institution of
**MECHANICAL
ENGINEERS**

jura[®]
SWISS  MADE

Many of us enjoy a fresh cup of coffee, but how much do you know about the engineering that goes into the machines that allow you to get fresh hot coffee at the touch of a button?

Join the IMechE's Switzerland Group on a visit to JURAWorld and the JURA's service factory. Visit includes a tour, a presentation and of course a coffee break! This visit has kindly been organised by Paul Nwanna.

Limited places available.

Thursday 30 Apr 2015, 16:00

JURA Elektroapparate AG
Kaffeeweltstrasse 10
4626 Niederbuchsiten
