# ABOUT SWISSED

SWISSED18 is the fifth Annual Symposium of the Swiss Society of Systems Engineering (SSSE), also acting as the Swiss Chapter of the International Council on Systems Engineering (INCOSE).

We are offering a 1 day event bringing together first-class presenters and practitioners from across Europe, to share knowledge and experiences on how to plan, develop and manage systems in an efficient and successful way.

This year, we are introducing our World Café for the first time. It is a global movement to support the innovative power of conversation, providing a core process for sharing our collective knowledge and shaping the future of corporations and organisations alike.
