

02. SEPT. 2019

Lake Side, Bellerivestrasse 170, Zürich

KEY NOTE SPEAKERS:

Prof. David Long | Prof. Jon Holt | Prof. Clement Fortin

TO REGISTER: www.ssse.ch/swissed19

ABOUT SWISSED

SWISSED19 is the sixth annual symposium of the Swiss Society of Systems Engineering (SSSE). SSSE acts as the Swiss Chapter of the International Council on Systems Engineering (INCOSE).

The one-day event brings together first-class presenters and practitioners, to share knowledge and experience on how to plan, develop and manage systems in an efficient and successful way.

WHAT IS SYSTEMS ENGINEERING?

“Systems Engineering is an interdisciplinary approach and means to enable the realization of successful systems. It focuses on defining customer needs and required functionality early in the development cycle, documenting requirements, then proceeding with design synthesis and system validation while considering the complete problem: Operations, Performance, Test, Manufacturing, Cost & Schedule, Training & Support, Disposal.” - INCOSE
